CAREER OBJECTIVE

Full stack developer with 5 years of experience in web development technologies. Proficient in Frontend development using React, Vue, Angular and backend using Node, PHP. Familiar with CI/CD using AWS, Vercel, Heroku, Netlify.

PROFESSIONAL EXPERIENCE

Full-stack Developer / QueueMart,
Kuala Lumpur, Malaysia   *Feb 20 – Aug 21*

- Tracked database updates using migration
- Used Forge for CI/CD
- Added functions like deposit, withdraw, transfer etc.
- Reduced costs by 40% and saved a half of timeframe

Front-end Developer / Crowdbotics,
Berkeley, CA   *Apr 18 – Nov 19*

At Crowdbotics I worked with a team of talented developers and PMs to tackle a wide variety of problems and goals using React.

- Wrote React frontend code from UI/UX design
- Spearheaded fixing front-end bug list and completing tickets on Asana
- Constantly improved the UI/UX to create a smoother experience for users

React Native Developer /
Netronian, New York, NY   *Feb 17 – Dec 17*

- Developed and directed new features of construction app.
- Tackled on Whole bunch of jest tests and boost pass rate higher than 80%
- Compressed Images to improve user experience using react-native-resizer

Laravel backend Developer /
Thribby, New York, NY   *Oct 16 – Dec 16*

While an API developer at Thribby I developed backend of react native app using Laravel and also wrote API docs using Swagger.
